18  
19 Plaintiff Environmental Research Center, Inc. (“PLAINTIFF” or “ERC”) brings this  
20 action in the interests of the general public and, on information and belief, hereby alleges:

21 **INTRODUCTION**

22 1. This action seeks to remedy the continuing failure of Defendants BLENDFRESH,  
23 LLC (“BLENDFRESH”) and DOES 1-25 (hereinafter individually referred to as  
24 “DEFENDANT” or collectively as “DEFENDANTS”) to warn consumers in California that they  
25 are being exposed to lead, a chemical known to the State of California to cause cancer, birth  
26 defects, and other reproductive harm. According to the Safe Drinking Water and Toxics  
27 Enforcement Act of 1986, Health and Safety Code (“H&S Code”) section 25249.5 (also known  
28 as and referred to hereinafter as “Proposition 65”), businesses must provide persons with a “clear

1 and reasonable warning” before exposing individuals to a chemical known to the state to cause  
2 cancer or reproductive harm. DEFENDANTS manufacture, package, distribute, market, and/or  
3 sell in California certain products containing lead (the “SUBJECT PRODUCTS”):

- 4 • Blendfresh Fusion Wholefoodpowder 8 Plant Based Proteins Vanilla
- 5 • Blendfresh Fusion Wholefoodpowder 15 Seeds & Sprouts Fiber

6 2. Lead (hereinafter, the “LISTED CHEMICAL”) is a chemical known to the State of  
7 California to cause cancer, birth defects, and other reproductive harm.

8 3. The use and/or handling of the SUBJECT PRODUCTS causes exposures to the  
9 LISTED CHEMICAL at levels requiring a “clear and reasonable warning” under Proposition  
10 65. DEFENDANTS exposed consumers, users, and handlers to the LISTED CHEMICAL and  
11 have failed to provide the health hazard warnings required by Proposition 65.

12 4. DEFENDANTS’ continued manufacturing, packaging, distributing, marketing,  
13 and/or sales of the SUBJECT PRODUCTS without the required health hazard warnings, causes,  
14 or threatens to cause, individuals to be involuntarily, unknowingly and unwittingly exposed to  
15 levels of the LISTED CHEMICAL that violate Proposition 65.

#### 16 PARTIES

17 5. PLAINTIFF is a non-profit corporation organized under California law. ERC is  
18 dedicated to, among other causes, reducing the use and misuse of hazardous and toxic  
19 substances, consumer protection, worker safety, and corporate responsibility.

20 6. ERC is a person within the meaning of H&S Code §25249.11 and brings this  
21 enforcement action in the public interest pursuant to H&S Code §25249.7(d). H&S Code §  
22 25249.7 (d) specifies that actions to enforce Proposition 65 may be brought by a person in the  
23 public interest, provided certain notice requirements and no other public prosecutor is diligently  
24 prosecuting an action for the same violation(s).

25 7. BLENDFRESH LLC is now, and was at all times relevant herein, a limited liability  
26 company organized under the laws of Utah and is doing business within the meaning of H&S  
27 Code §25249.11.

1 8. DEFENDANTS own, administer, direct, control and/or operate facilities and/or  
2 agents, distributors sellers, marketers or other retail operations who place their SUBJECT  
3 PRODUCTS into the stream of commerce in California (including but not limited to Alameda  
4 County) under the brand name Blendfresh, which contain the LISTED CHEMICAL without first  
5 giving clear and reasonable warnings.

6 9. DEFENDANTS, separately and each of them, are or were, at all times relevant to the  
7 claims in this Complaint and continuing through the present, legally responsible for compliance  
8 with the provisions of Proposition 65. Whenever an allegation regarding any act of a  
9 DEFENDANT is made herein, such allegation shall be deemed to mean that DEFENDANT, or  
10 its agent, officer, director, manager, supervisor, or employee did, or so authorized, such acts while  
11 engaged in the affairs of DEFENDANT's business operations and/or while acting within the  
12 course and scope of their employment or while conducting business for DEFENDANT(S) for a  
13 commercial purpose.

14 10. In this Complaint, when reference is made to any act of a DEFENDANT, such  
15 allegation shall mean that the owners, officers, directors, agents, employees, contractors, or  
16 representatives of DEFENDANT acted or authorized such actions, and/or negligently failed and  
17 omitted to act or adequately and properly supervise, control or direct its employees and agents  
18 while engaged in the management, direction, operation or control of the affairs of the business  
19 organization. Whenever reference is made to any act of any DEFENDANT, such allegation shall  
20 be deemed to mean the act of each DEFENDANT acting individually, jointly, and severally as  
21 defined by Civil Code Section 1430 *et seq.*

22 11. PLAINTIFF does not know the true names, capacities and liabilities of  
23 DEFENDANT's DOES Nos. 1-25, inclusive, and therefore sues them under fictitious names.  
24 PLAINTIFF will amend this Complaint to allege the true name and capacities of the DOE  
25 Defendants upon being ascertained. Each of these Defendants was in some way legally  
26 responsible for the acts, omissions, and/or violations alleged herein.

27 **JURISDICTION AND VENUE**

28 12. This Court has jurisdiction over this action pursuant to California Constitution Article

1 VI, Section 10, which grants the Superior Court “original jurisdiction in all causes except those  
2 given by statute to other trial courts.” The statute under which this action is brought does not  
3 specify any other court with jurisdiction.

4 13. This Court has jurisdiction over DEFENDANTS because they are business entities  
5 that do sufficient business, have sufficient minimum contacts in California or otherwise  
6 intentionally avail themselves of the California market, through the sale, marketing and use of  
7 their SUBJECT PRODUCTS in California, to render the exercise of jurisdiction over them by  
8 the California courts consistent with traditional notions of fair play and substantial justice.

9 14. Venue in this action is proper in the Alameda County Superior Court because the  
10 cause, or part thereof, arises in the County of Alameda since DEFENDANTS’ products are  
11 marketed, offered for sale, sold, used, and/or consumed in this county.

#### 12 STATUTORY BACKGROUND

13 15. The People of the State of California declared in Proposition 65 their right “[t]o be  
14 informed about exposures to chemicals that cause cancer, birth defects, or other reproductive  
15 harm.” (Section 1(b) of Initiative Measure, Proposition 65).

16 16. To effect this goal, Proposition 65 requires that individuals be provided with a “clear  
17 and reasonable warning” before being exposed to chemicals listed by the State of California as  
18 causing cancer or reproductive toxicity. H&S Code §25249.6 states, in pertinent part:

19 No person in the course of doing business shall knowingly and intentionally  
20 expose any individual to a chemical known to the state to cause cancer or  
21 reproductive toxicity without first giving clear and reasonable warning to such  
individual....

22 17. An exposure to a chemical in a consumer product is one “which results from a  
23 person’s acquisition, purchase, storage, consumption, or other reasonably foreseeable use of a  
24 consumer good, or any exposure that results from receiving a consumer service.” (Cal. Code  
25 Regs., tit. 22, § 12601, subd. (b).)

26 18. Proposition 65 provides that any “person who violates or threatens to violate” the  
27 statute may be enjoined in a court of competent jurisdiction. (H&S Code §25249.7). The phrase  
28 “threaten to violate” is defined to mean creating “a condition in which there is a substantial

1 probability that a violation will occur” (H&S Code §25249.11(e)). Violators are liable for civil  
2 penalties of up to \$2,500 per day for each violation of the Act. (H&S Code §25249.7.)

### 3 FACTUAL BACKGROUND

4 19. On February 27, 1987, the State of California officially listed lead as a chemical  
5 known to cause reproductive toxicity. Lead became subject to the warning requirement one year  
6 later and was therefore subject to the “clear and reasonable” warning requirements of Proposition  
7 65 beginning on February 27, 1988. (27 California Code of Regulations (“CCR”) §25000, *et*  
8 *seq.*; H&S Code §25249.5, *et seq.*).

9 20. On October 1, 1992, the State of California officially listed lead and lead compounds  
10 as chemicals known to cause cancer. Lead and lead compounds became subject to the warning  
11 requirement one year later and were therefore subject to the "clear and reasonable" warning  
12 requirements of Proposition 65 beginning on October 1, 1993. (27 CCR § 25000, *et seq.*; H&S  
13 Code §25249.6, *et seq.*). Due to the high toxicity of lead, the maximum allowable dose level for  
14 lead is 0.5 µg/day (micrograms a day) for reproductive toxicity and the no significant risk level  
15 for carcinogens is 15µg/day (oral).

16 21. To test the SUBJECT PRODUCTS for lead, PLAINTIFF hired a well-respected and  
17 accredited testing laboratory. The results of testing undertaken by PLAINTIFF of  
18 DEFENDANTS’ SUBJECT PRODUCTS show that the SUBJECT PRODUCTS tested were in  
19 violation of the 0.5 µg/day and/or 15 µg/day “safe harbor” daily dose limits set forth for lead in  
20 Proposition 65’s regulations. Very significant is the fact that people are being exposed to lead  
21 through ingestion as opposed to other not as harmful methods of exposure such as dermal  
22 exposure. Ingestion of lead produces much higher exposure levels and health risks than dermal  
23 exposure to this chemical.

24 22. At all times relevant to this action, DEFENDANTS, therefore, have knowingly and  
25 intentionally exposed the users, consumers and/or handlers of the SUBJECT PRODUCTS to the  
26 LISTED CHEMICAL without first giving a clear and reasonable warning to such individuals.

27 23. The SUBJECT PRODUCTS have allegedly been sold by DEFENDANTS for use  
28 in California since at least June 15, 2014. The SUBJECT PRODUCTS continue to be distributed

1 and sold in California without the requisite warning information.

2 24. As a proximate result of acts by DEFENDANTS, as persons in the course of doing  
3 business within the meaning of Health & Safety Code §25249.11, individuals throughout the  
4 State of California, including in the County of Alameda have been exposed to the LISTED  
5 CHEMICAL without a clear and reasonable warning on the SUBJECT PRODUCTS. The  
6 individuals subject to the violative exposures include normal and foreseeable users of the  
7 SUBJECT PRODUCTS, as well as all other persons exposed to the SUBJECT PRODUCTS.

8 25. On June 15, 2017, ERC served BLENDFRESH and each of the appropriate public  
9 enforcement agencies with a document entitled "Notice of Violations of California Health &  
10 Safety Code Section 25249.5" that provided BLENDFRESH and the public enforcement  
11 agencies with notice that BLENDFRESH was in violation of Proposition 65 for failing to warn  
12 purchasers and individuals using the SUBJECT PRODUCTS that the use of the SUBJECT  
13 PRODUCTS exposes them to lead, a chemical known to the State of California to cause cancer  
14 and/or reproductive toxicity ("Prop. 65 Notice"). A true and correct copy of the 60-Day Notice  
15 ("NOTICE") is attached hereto as Exhibit A and is hereby incorporated by reference, and is  
16 available on the Attorney General's website located at <http://oag.ca.gov/prop65>.

17 26. The NOTICE was issued pursuant to, and in compliance with, the requirements of  
18 H&S Code §25249.7(d) and the statute's implementing regulations regarding the notice of the  
19 violations to be given to certain public enforcement agencies and to the violator. The NOTICE  
20 included, *inter alia*, the following information: the name, address, and telephone number of the  
21 noticing individual; the name of the alleged violator; the statute violated; the approximate time  
22 period during which violations occurred; and descriptions of the violations including the  
23 chemical involved, the routes of toxic exposure, and the specific product or type of product  
24 causing the violations.

25 27. BLENDFRESH was also provided copies of the document entitled "The Safe  
26 Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary," which is  
27 also known as Appendix A to Title 27 of CCR §25903, via Certified Mail.

28 28. The California Attorney General was provided a copy of the NOTICE and a Certificate

1 of Merit by the attorney for the noticing party, stating that there is a reasonable and meritorious  
2 case for this action, and attaching factual information sufficient to establish a basis for the  
3 certificate, including the identity of the persons consulted with and relied on by the certifier, and  
4 the facts, studies, or other data reviewed by those persons, pursuant to H&S Code §25249.7(h)  
5 (2) via online submission.

6 29. After expiration of the sixty (60) day notice period, The appropriate public  
7 enforcement agencies failed to commence and diligently prosecute a cause of action under H&S  
8 Code §25249.5, *et seq.* against DEFENDANTS based on the allegations herein.

9 **FIRST CAUSE OF ACTION**

10 **(Injunctive Relief for Violations of Health and Safety Code § 25249.5, *et seq.* concerning**  
11 **the SUBJECT PRODUCTS described in the June 15, 2017 Prop. 65 Notice of Violation)**  
12 **Against DEFENDANTS**

13 30. PLAINTIFF re-alleges and incorporates by reference Paragraphs 1 through 29,  
14 inclusive, as if specifically set forth herein.

15 31. By committing the acts alleged in this Complaint, DEFENDANTS at all times relevant  
16 to this action, and continuing through the present, have violated, or threaten to violate, H&S Code  
17 §25249.6 by, in the course of doing business, knowingly and intentionally exposing individuals  
18 in California to a chemical known to the State of California to cause cancer or reproductive  
19 toxicity without first giving clear and reasonable warnings to such persons who use, consume or  
20 handle the SUBJECT PRODUCTS containing the LISTED CHEMICAL, pursuant to H&S Code  
21 §§ 25249.6 and 25249.11(f).

22 32. By the above-described acts, DEFENDANTS have violated, or threaten to violate,  
23 H&S Code § 25249.6 and are therefore subject to preliminary and permanent injunctions ordering  
24 DEFENDANTS to stop violating Proposition 65, to provide warnings to all present and future  
25 customers, and to provide warnings to DEFENDANTS' past customers who purchased or used  
26 the SUBJECT PRODUCTS without receiving a clear and reasonable warning.

27 33. An action for injunctive relief under Proposition 65 is specifically authorized by H&S  
28 Code §25249.7(a).

1 34. Continuing commission by DEFENDANTS of the acts alleged above will irreparably  
2 harm the citizens of the State of California, for which harm they have no plain, speedy, or  
3 adequate remedy at law.

4 35. In the absence of preliminary and then permanent injunctive relief, DEFENDANTS  
5 will continue to create a substantial risk of irreparable injury by continuing to cause consumers  
6 to be involuntarily, unknowingly and unwittingly exposed to the LISTED CHEMICAL through  
7 the use, consumption and/or handling of the SUBJECT PRODUCTS.

8 **SECOND CAUSE OF ACTION**

9 **(Civil Penalties for Violations of Health and Safety Code § 25249.5, *et seq.* concerning the**  
10 **SUBJECT PRODUCTS described in the June 15, 2017 Prop. 65 Notice of Violation)**  
11 **Against DEFENDANTS**

12 36. PLAINTIFF re-alleges and incorporates by reference Paragraphs 1 through 35,  
13 inclusive, as if specifically set forth herein.

14 37. By committing the acts alleged in this Complaint, DEFENDANTS at all times  
15 relevant to this action, and continuing through the present, have violated H&S Code §25249.6 by,  
16 in the course of doing business, knowingly and intentionally exposing individuals in California  
17 to a chemical known to the State of California to cause cancer or reproductive toxicity without  
18 first giving clear and reasonable warnings to such persons who use, consume or handle the  
19 SUBJECT PRODUCTS containing the LISTED CHEMICAL, pursuant to H&S Code §§  
20 25249.6 and 25249.11(f).

21 38. By the above-described acts, DEFENDANTS are liable, pursuant to H&S Code  
22 §25249.7(b), for a civil penalty of up to \$2,500 per day per violation for each unlawful exposure  
23 to the LISTED CHEMICAL from the SUBJECT PRODUCTS, in an amount in excess of \$1  
24 million.

25 **THE NEED FOR INJUNCTIVE RELIEF**

26 39. PLAINTIFF re-alleges and incorporates by this reference Paragraphs 1 through 38,  
27 as if set forth below.

28 40. By committing the acts alleged in this Complaint, DEFENDANTS have caused or  
threaten to cause irreparable harm for which there is no plain, speedy or adequate remedy at law.

1 In the absence of equitable relief, DEFENDANTS will continue to create a substantial risk of  
2 irreparable injury by continuing to cause consumers to be involuntarily and unwittingly exposed  
3 to the LISTED CHEMICAL through the use and/or handling of the SUBJECT PRODUCTS.

4 **PRAYER FOR RELIEF**

5 Wherefore, PLAINTIFF prays for the following relief:

6 A. A preliminary and permanent injunction, pursuant to H&S Code §25249.7(b),  
7 enjoining DEFENDANTS, their agents, employees, assigns and all persons acting in concert or  
8 participating with DEFENDANTS, from manufacturing, distributing, marketing or selling the  
9 SUBJECT PRODUCTS in California without first providing a clear and reasonable warning,  
10 within the meaning of Proposition 65, that the users and/or handlers of the SUBJECT  
11 PRODUCTS are exposed to the LISTED CHEMICAL;

12 B. An injunctive order, pursuant to H&S Code §25249.7(b), compelling  
13 DEFENDANTS to identify and locate each individual who has purchased the SUBJECT  
14 PRODUCTS since June 15, 2014, and to provide a warning to such person that the use of the  
15 SUBJECT PRODUCTS will expose the user to a chemical known to cause cancer, birth defects,  
16 and other reproductive harm;

17 C. An assessment of civil penalties pursuant to Health & Safety Code §25249.7(b),  
18 against DEFENDANTS in the amount of \$2,500 per day for each violation of Proposition 65, in  
19 an amount in excess of \$1 million, according to proof;

20 D. An award to PLAINTIFF of its reasonable attorney's fees and costs of suit  
21 pursuant to California Code of Civil Procedure §§ 1032 *et. seq* and 1021.5, as PLAINTIFF shall  
22 specify in further applications to the Court; and,

23 E. Such other and further relief as may be just and proper.

June 15, 2017

**NOTICE OF VIOLATION OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center, Inc. ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Health and Safety Code Section 25249.7(d), ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

**Blendfresh, LLC**

Notice of Violation of California Health & Safety Code §25249.5 *et seq.*

June 15, 2017

Page 2

**Consumer Products and Listed Chemical.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- 1. Blendfresh Fusion Wholefoodpowder 8 Plant Based Proteins Vanilla - Lead**
- 2. Blendfresh Fusion Wholefoodpowder 15 Seeds & Sprouts Fiber - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least June 15, 2014, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time consuming litigation.

Notice of Violation of California Health & Safety Code §25249.5 *et seq.*  
June 15, 2017  
Page 3

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violation to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

A handwritten signature in black ink that reads "Matthew Maclear". The signature is written in a cursive style with a large, stylized initial "M".

---

### CERTIFICATE OF MERIT

**Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Blendfresh, LLC**

I, Matthew Maclear, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged that the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: June 15, 2017

Matthew Maclear

Notice of Violation of California Health & Safety Code §25249.5 *et seq.*

## 27 CCR Appendix A

### Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT  
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY  
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986  
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

**The “Proposition 65 List.”** Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: [http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

**Clear and reasonable warnings.** A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and

reasonable.” This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### *DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?*

Yes. You should consult the current version of the statute and regulations

(<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Periods.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

***Exposures that pose no significant risk of cancer.*** For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at:

<http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

***Exposures that will produce no observable reproductive effect at 1,000 times the level in question.*** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at:

<http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

***Exposures to Naturally Occurring Chemicals in Food.*** Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

***Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water.*** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

#### *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;

- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$5B500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.

The notice is reproduced here:

Page 1

Date: June 15, 2017

Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc.

Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108

Phone number: 619-500-3090

## **SPECIAL COMPLIANCE PROCEDURE**

### **PROOF OF COMPLIANCE**

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

**The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:**

- 1. You have actually taken the corrective steps that you have certified in this form**
- 2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice**
- 3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.**
- 4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.**

### **PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY**

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

### **IMPORTANT NOTES:**

- 1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.**
- 2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.**

Page 2

Date: June 15, 2017

Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc.  
Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108  
Phone number: 619-500-3090

**PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE**

**Certification of Compliance**

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

**Certification**

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).
